

BASE - Lithium

Lithium Iron Phosphate Battery

BASE200

12.8V - 200Ah

Beyond Batteries BASE Range - A cost-effective, reliable power solution for high-use applications, where compromise is not an option. Built for durability and performance on a budget, our BASE lithium ensures uninterrupted power, keeping essential equipment running when it matters most.

High Capacity

BASE200 offers 2560Wh of high-capacity power, ideal for demanding applications and long use.

Size & Weight

At just 20kg, BASE200 delivers 4X the power, 1/3 the weight, and 3X the lifespan of similar-sized AGM batteries.

Safety First

LiFePO₄ - The proven, safe lithium option. Protected by an advanced BMS for safety & maximum longevity.

Fast Charge & Discharge

2 hour fast charge, 250A continuous output, and 500A peak for high-use power startups.

Long Cycle Life

Provides 6000 cycles at 80% depth of discharge. 3500 cycles at 100%.

Applications

Ideal for security towers, security pods, lighting, traffic signals, leisure, marine and solar storage.
