

**Features:**

- Heavy-duty BusBars provide a robust means to connect (bus) together the multitude of large cables found in modern electrical installations
- Highest amperage rated bus bar (300A) with 3/8" terminal studs (Also available in 5/16")
- They offer unrivaled flexibility to meet the requirements of any installation, saving significant cost and space

**Specifications:**

- Base & Cover Material : Nylon, Glass Fiber reinforce and PC
- Voltage MAX. Operating: 48V DC
- Continuous Rating : 300A
- Bus Material: plate with nickel Copper.
- Dimensions (L x W x H): 103\*50\*68mm
- Terminal Stud Size : 4 x 3/8"
